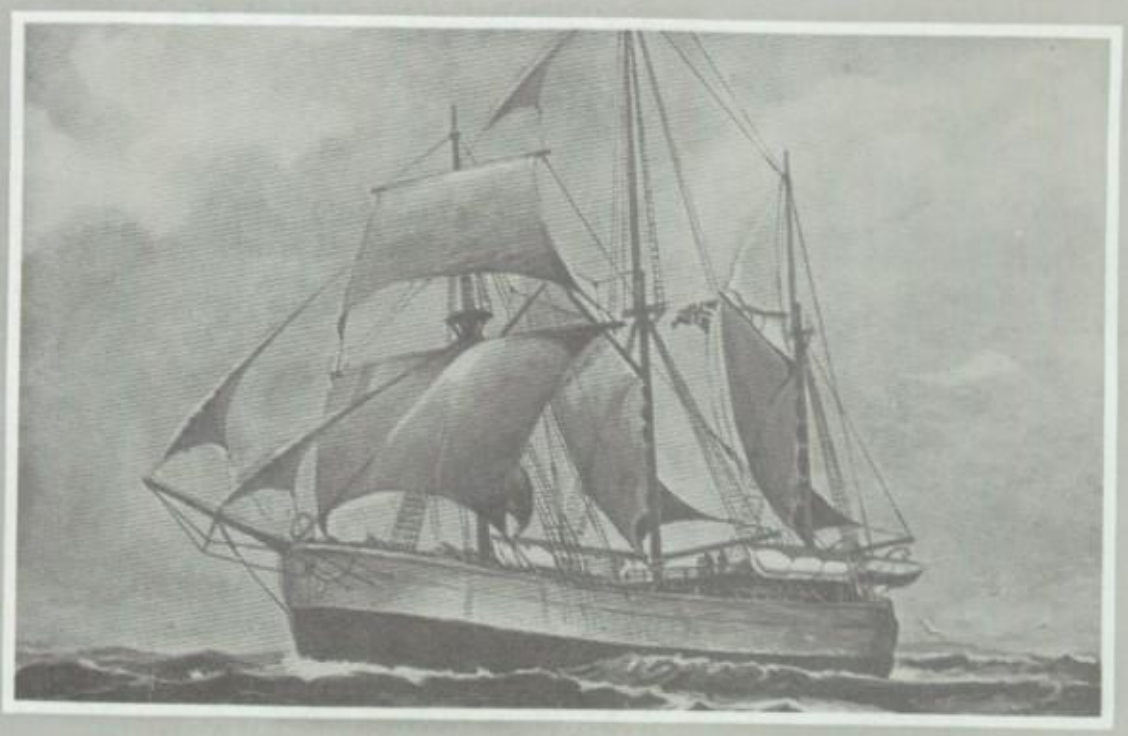
THE FRAM STORY



The FRAM Of S.H.S.

The FRAM of S.H.S. depicts many qualities of the original Norweigan vessel FRAM, (FRAM's norweigan translation is foward) Paralleling the feats of this ship, S.H.S. graduates go FORWARD knowing that they, too, accomplished the similar goals of . . .
achieving a formidable task

gaining a wealth of knowledge

The History Of The Ship-FRAM

The building of FRAM

The polar exploration vessel FRAM was built to satisfy Fridtjof Nansen's keen desire to prove his theories on the currents of the Artic Ocean. Prolonged studies in the northern seas had led him to conclude that there had to be a current flowing from a point north of Asia, and perhaps crossing the Pole itself before turning south between Svalbard and Greenland.

His theory was further studied by the discovery of articles of clothing and other flotsam which he believed to originate from an ill-started American exhibition that had sailed in the JEANETTE which had foundered off the New Siberian Islands in 1881.

Three times the outstanding skill, navigation and seamanship, brought the FRAM safely home. Today this ship is in the FRAM MUSEUM, Oslo, Norway. On June 24, 1893 the FRAM set out on her first expedition. Nansen was in charge of the scientific side and Otto was the captain of the ship.

The voyage along the coast of Norway was a touching farewell, not only to the ports, but also the fishing villages, but mostly to their homeland. The FRAM and her crew were given a big sendoff. On July 21, the FRAM left bound for the New Siberian Islands, and by September 22, she had reached the ice. Her drift across the Arctic Ocean, confirmed Nansens theory to the hilt, as locked in the ice. The FRAM was carried for hundreds of miles between the North Pole and Franz Joefs Land.

The voyage took just over three years. The course of her drift changed many times leading those on board to fear that they were trapped in eddies or backwaters of the main current. Nor did they get as close to the Pole as Nansen had hoped- to reach 8557'N which they did on October 16, 1893.

Nansen's theories met with fierce opposition from scientist abroad but

he received support from the Norwegian Georgraphical Society, when he submitted his theory on February 18, 1890.

He wished to substantiate his claims by building a small ship stury enough to drift in the grip of ice, with a picked crew on board, clear across the Artic Ocean without being crushed or breaking up. It is to Nansen's theories that FRAM owes her weight and proportions. Today, the design of the FRAM occupies a place in the history of unique exploration.

After the Norwegian Society had made a grant available for the venture and private citizens had added their contributions, the work of building the FRAM continued. His only advisor on the project was Otto Sverdrup, and the building was done by Colvin Archer. Nansen wanted a ship which, though small and light, would be strong enough to take the tremendous pressure of packed ice. A ship with a hull that would be lifted up by the ice and not forced under and crushed into pits. And most important, it had to be a comfortable home for the crew. The ship turned out to be bigger than Nansen had thought. It weighed 80 tons, measured 39 meters from stem to stern, was 77 meters in the beam, and had a drought of 5 meters. On June 3, 1893, the FRAM was ready to be put to sea.

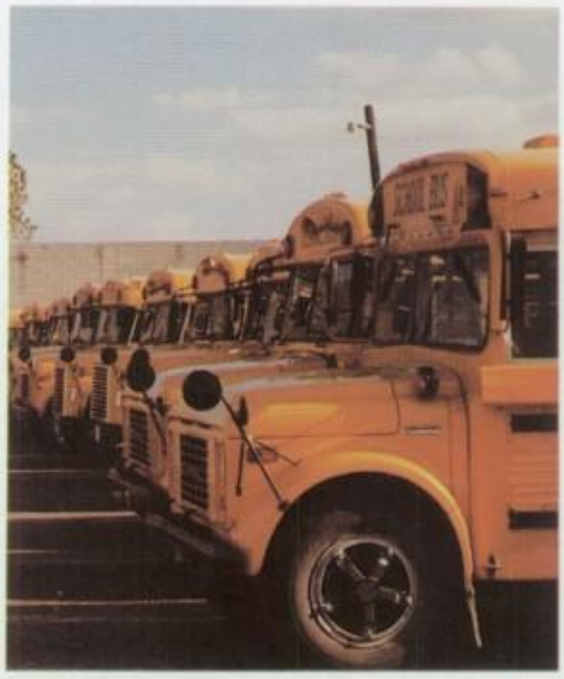
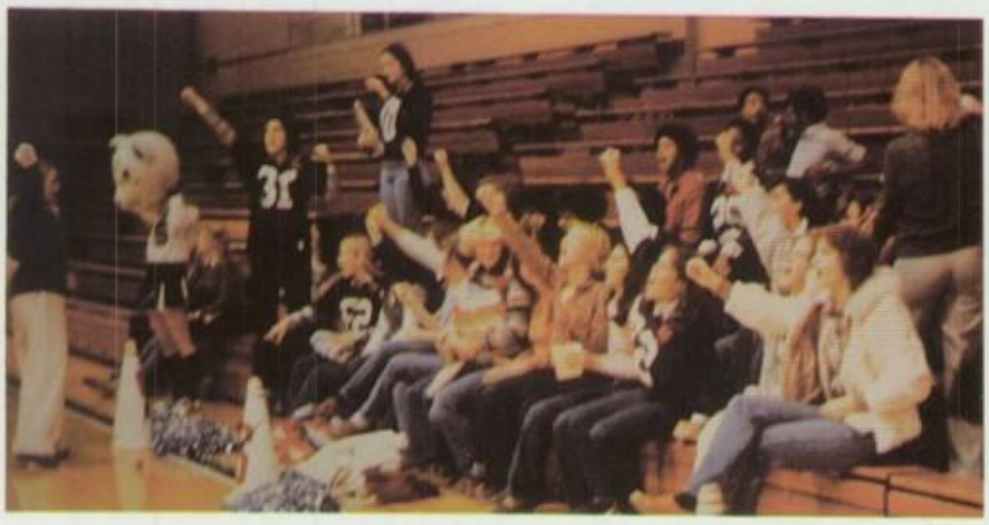
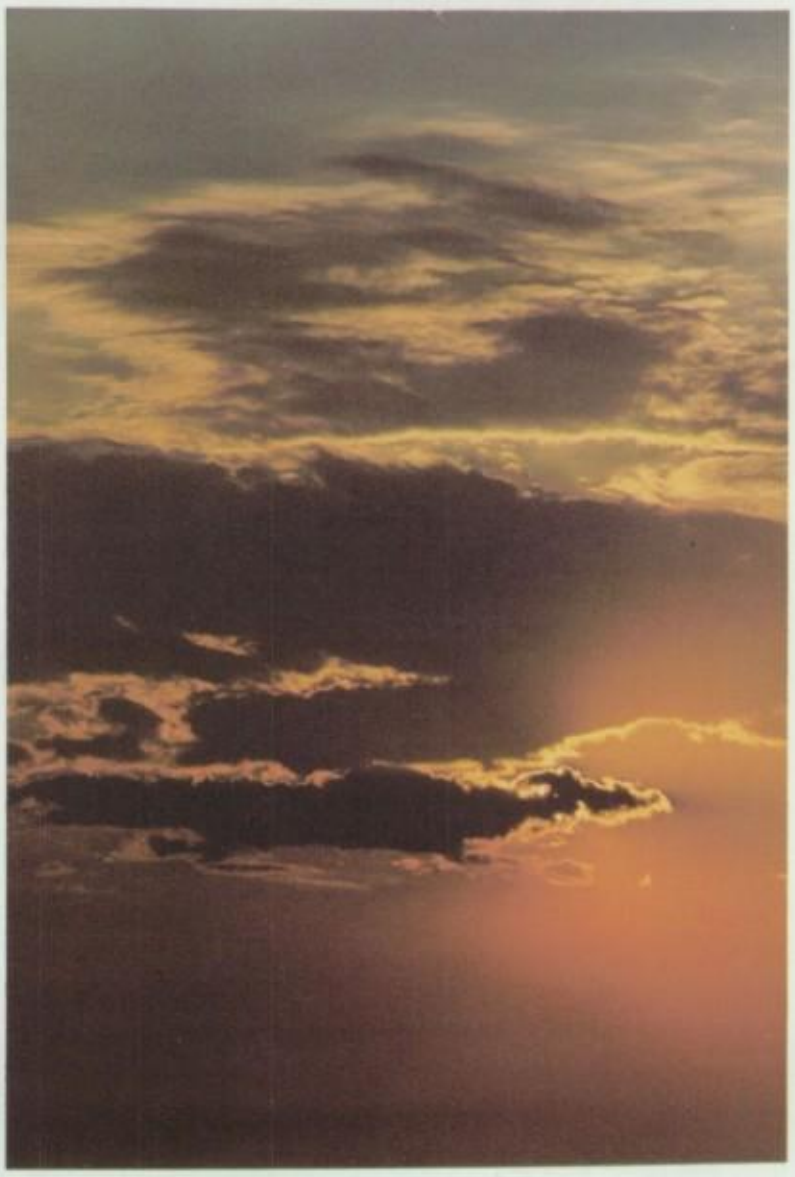
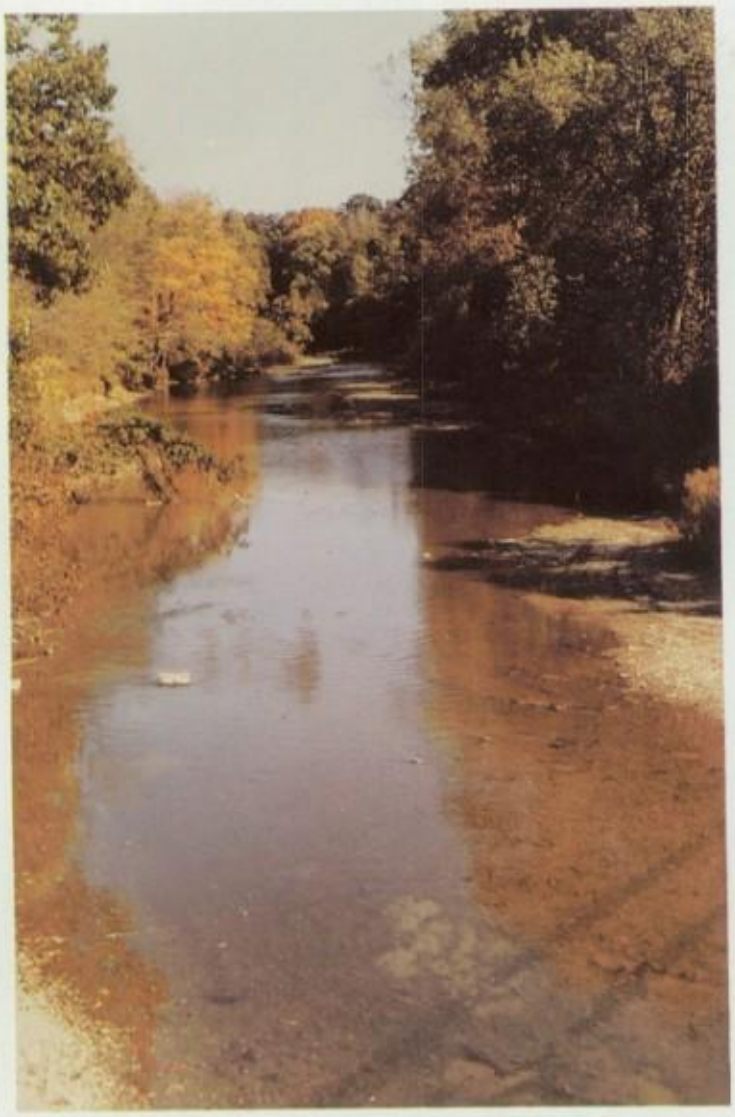
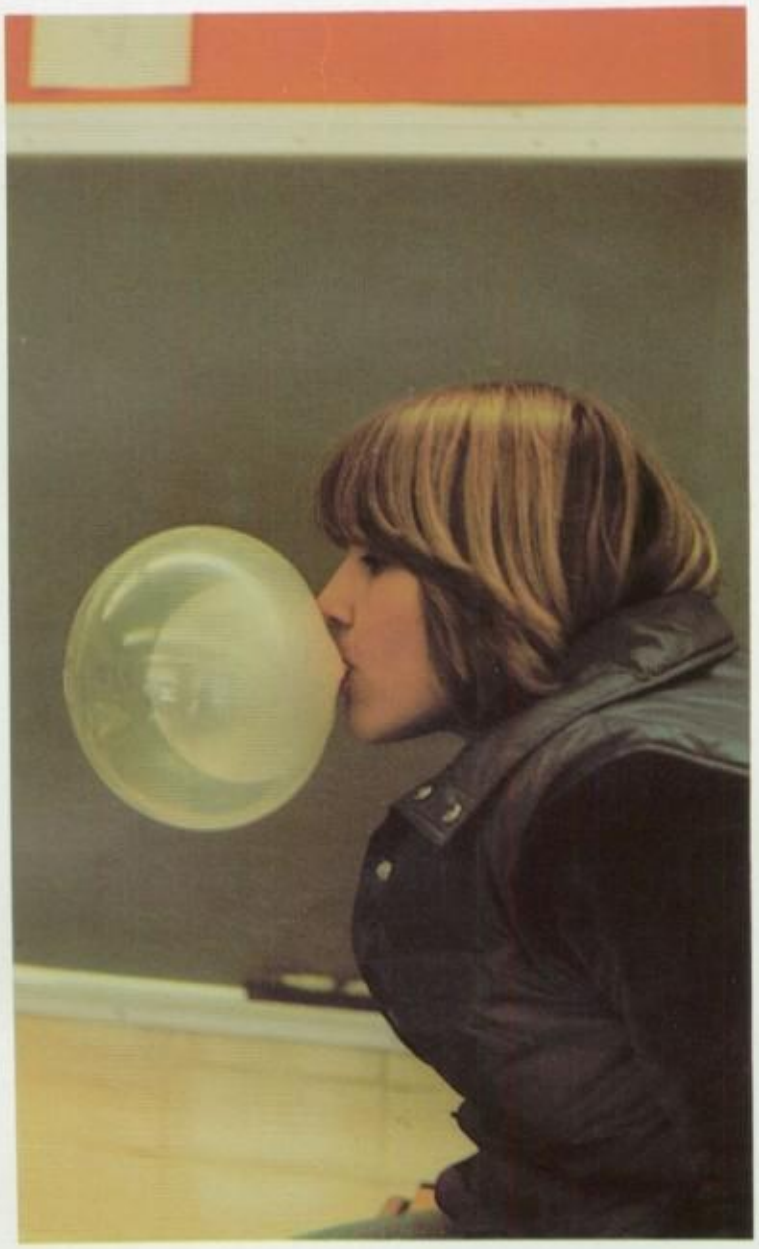
PICTURES TELL THE TALE OF LIFE . . .











All Over The World

Have you ever wished you could visit a different country? During the course of the year, three Sandusky High School students visited foreign countries and a foreign student visited our country. Each of the foreign exchange students is active in American Field Service and International Club. They have answered many questions and given presentations on their experiences in the countries they have visited.

In early fall, I took the opportunity to ask these four students to tell me about the country each has visited. As you read on, you can picture what life in each country is like.

The first person I talked to was Pete McAllister who is a senior at Sandusky High School. He visited Sri-Lanka, Pannipitiya, which is a little pear-shaped island by the tip of India. During Pete's stay in Sri-Lanka last summer, the temperatures ranged from 90-100 degrees F.

Pete attended school from 8:30 a.m. to 11:00 a.m. in a school consisting of grades one through twelve.

One thing which was very different was how they bathed. Everyone bathed, with their clothes on, in a public bath. It must not have taken very long for Pete to get used to this because he mentioned nothing else about it. Overall, I would say that Pete enjoyed himself very much. "I have already made my plans to go back to Sri-Lanka," said Pete.

Next, I talked to Carla Smith, who is also a senior at Sandusky High School. Carla visited Pesardo, Italy, where she enjoyed the 90-100 degree (F) temperatures. She spent much of her time at the beach, soaking in the sun and swimming in the sea.

In the evenings, Carla went out with her friends to discos and other clubs. "There was mostly group dating there," said Carla. "There was no drinking age there either."

There were always activities like windsurfing, boating, and skating to keep Carla busy.

It sounds as though Carla was in a teenager's heaven, doesn't it? Carla commented, "I made a lot of great friends there; I wish I could have stayed longer."

The last of the Americans out of the four students is Angela White. Angela, like the others so far, is a senior at Sandusky High School. Angela visited Stockholm, Sweden which she described as "a very pleasant, cool area." Angela said, "There was no culture shock when I arrived there." The food they ate and the clothes they wore were about the same as they are here.

The one thing that really impressed Angela was the open affection of the teenagers. The teenagers of the same sex were not afraid to share their emotions and affections. Angela also noted that the people were into nature more than Americans are. All the families had summer homes. There were many more outdoor activites there.

"Overall," Angela said, "it was an enjoyable summer. I want to go again."

The last of our foreign exchange students is from Sandefjord, Norway. Her name is Marit Evensen. Marit is going into her second year of academic school in Norway. Academic school is similar to a United States college. Norwegians are required to go to school only nine years; then, if they would like, they can go to academic school.

Marit is a senior at Sandusky High School. She said that Sandusky High is much bigger than the school she attends in Norway. The school in Norway has 500-600 students.

The one big difference in school is time. "You hurry too much!" said Marit. Norwegians have ten minutes between each class and twenty minutes for lunch. They bring their lunch to school and may go where they would like to eat.

"We have no locker," said Marit, "we use a backpack." They take all their books home everyday.

There is also a difference in the relationships between students and teachers. Here, the teachers are closer to the students.

Marit also comments on our dressing habits. She said the girls here "fuss over their appearance more than the girls in Norway.

Several other differences between the U.S. and Norway were noted by Marit. First, the legal driving age is 18 years old. Consequently the drinking ages are the same. Second, soccer is the "big" sport in Norway. They have no football. Another major difference involves dancing. The Norwegians dance more than we do and one does not hesitate to go to a dance with a group of girls or of boys. Finally, Marit said there is much more variation of people here. In norway, there are not so many different types of people.

Marit likes being here. She is especially fond of her family, the Druckenmillers.

-by Susan Chioromonte

To the right are Marit and her American family, the Druckenmillers. From the top to bottom: Mr. Don Druckenmiller, Mrs. Druckenmiller, Susan Druckenmiller, Marit Evensen.

Below are the four foreign exchange students; from left to right: Angela White, Pete McAllister, Carla Smith, Marit Evensen.

FIGHT THE TEAM

**Fight the team across the field,
show them Sandusky's here.
We're gonna send the earth re-
verberating, with a mighty cheer
Rah, Rah, Rah.
Hit them hard and see how they fall.
Never let their team get the ball.
Hail, hail the gangs all here
so lets beat that ol' team right now.**

ON SANDUSKY

**On Sandusky, on Sandusky,
fight right for your name.
Send the ball across the end boys,
touchdown everytime,
Rah, Rah, Rah.**

**On Sandusky, on Sandusky
fight right for your name.
Fight fellows, fight, fight, fight,
and win this game.**

THE HALLS OF IVY

Oh, we love THE HALLS OF IVY that surround us here today, And we will not forget tho' we be far, far away. To the hal-low'd HALLS OF IVY ev'ry voice will bid fare-well, And shimmer off in twi-light like the old vesper bell. One day a hush will fall.

The footsteps of us all will echo down the hall and disappear, But as we sadly start our journeys far apart, A part of ev'ry heart will linger here in the HALLS OF IVY, Where we've lived and learned to know, That thro' the years we'll see you in the sweet after-glow.

Streaks walk proudly on to the field, with their helmet pulled way down low, Ain't no sound but the sound of their cleats, the streaks are ready to go. Are you ready hey, are you ready for this, are you hangen on the edge of your seat? Down the field the Blue Streaks rip, running to the sound of the beat.

Chorus
Fremont bites the dust,
Fremont bites the dust.
And another one bites the dust
And another one bites the dust.
The Streaks are moven on
Hey, we're gonna get you to
Fremont bites the dust

Who do you think in No. 1 in the state of Oh-hi-o? We'll take you for everything that you have and kick you out of your home. We'll be happy, we'll be satisfied, we'll beat you all the way.

Chorus

Plenty of ways you can hurt a team and bring them to the ground, you can beat'em you can defeat'em, you can treat'em bad, but we're ready, yea! We're ready for you, we're standing on you field, down the field the Blue Streaks rip, running to the sound of the beat!!

The week of Sept. 15, 1980, was Senior Spirit Week at Sandusky High School. The highlights of the week included senior spirit flowers, jersey day, dress up day, and an exuberant pep rally on Friday. Senior team members provided the fans with a corpse of a Findley player and their strategies for winning this game. The gym was filled with contagious excitement. Seniors once again displayed the most spirit.

Cheryl Johnson- "J.R."

THOSE WERE THE DAYS . . .

Freshman Year, I Was So Green-

Didn't Know The Difference Between A

Counselor And A Dean.

Sophomore Year, I Got A Little Smarter-

Unfortunately, My Classes Got Harder.

Junior Year, I Knew All The Tricks-

Could Talk My Teachers Into Showing

All Kinds Of Flicks.

Senior Year, And I Rule The School-

Hopefully I Won't Graduate A Fool.

**But Soon In June
Will Come
Graduation-**

**I'll Face College
Work, And Inflation.**

**I'll Get Out On My
Own And Find Myself**

A Wife.

**We'll Have A Couple
Of Kids And Enjoy**

**Some Finer Things In
Life.**

**And Like A Good
Wine-I'll Get Better**

With The Years-

**Years Filled With
Grandchildren,**

**Social Security, And
A Few Tears,**

**But When It's All
Over, I'll Look**

Back And Say,

**"Life At SHS- Those
Were The Days!"**

-Jeff Van Dootingh

Meg and Kirsten show us their balancing act.

On this, my last time here with you,
My thoughts I will not shield,
For my football cheers are over,
Good-bye to Strobel Field.

Underneath the goal posts,
I've watched the Blue Streaks pray,
I've raised the flag of Glory
That starts us on our way.

The cheering for a touchdown,
The sound of the Victory Bell,
The fans, the chants, the boys in blue
Are memories I'll love so well.

I've screamed, shouted and shed some tears,
My feelings I cannot hide,
For everybody knows, that I am
Filled with Blue Streak Pride!

And now on this my last game
On Strobel Field with you,
I say with love and feeling—
GO! WIN! BIG BLUE!

Basketball gets a new head coach. Jerry Ernst's first year at SHS has been one of learning experiences, up and downs, and changes. The 1980-81 season did not produce as many victories as hoped, but it was an exciting one. Mr. Ernst felt that the team was relatively young, but played aggressively and with determination. The highlight of the season was the victory over Fremont when the Blue Streaks scored 97 pts. The Streaks finished the season with a 2-19 record with Don Walk making the 3rd team all Buckeye. Ben Jenkins and Randy Maschari were Honorable Mention in the Buckeye. Mr. Ernst feels that sophomores Maschari, Willie Clark, and Mike Pole show promise for the future.

Cagers Improve

The Varsity Girl's Basketball Team showed much improvement over last year when they won only one game; this year's record was six wins and 15 losses. The girls were led in scoring by Naomi Twine and Carla Young who both averaged ten points per game. Carla Young also tied the all-time SHS rebound record for a boy or girl with 25 rebounds in a game. This young team loses only one senior who is Naomi Twine. She was awarded Most Valuable Player. Other awards were given to Marian Graves for Most Improved and Young for Top Rebounder and Foul Shooter.

Naomi watches intently.

JV's Fill Out Varsity

The girls started off the season with a 7-1 record. Due to loss of players on the varsity team, several JV players had to be saved to fill out the varsity roster. Although there were more losses in the second half of the season, the girls did improve as a team. They played a tight defense and a disciplined offense. The girls also outscored their opponents 485-441 for the year. The final record was 9-8.

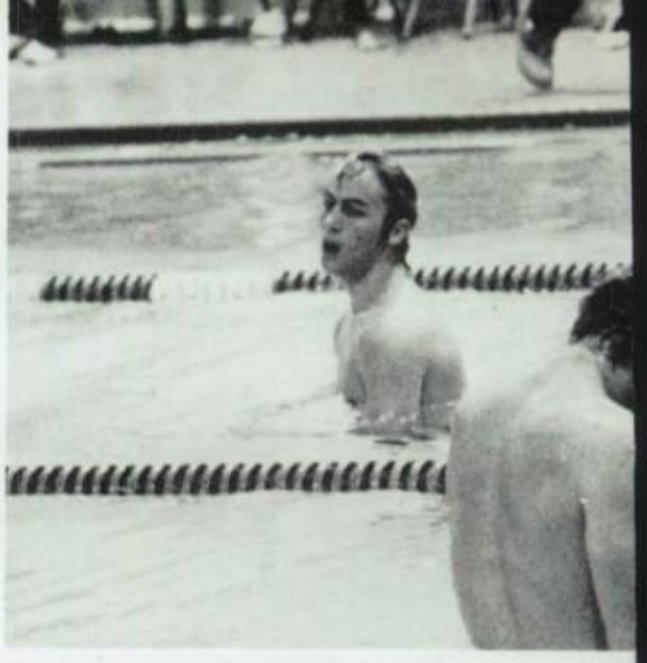
Tankers Have Impressive Season

The Streak swimmers enjoyed their first winning season in three years; the final record was eight wins and six losses. The placed high in the NWOAC meets, competed well in Districts and qualified for State in four events. A total of four school records and five pool records were broken. The record breakers include John Stauffer, Steve Cremean, Craig Cliff, and Hank Boissenault. Cremean and Cliff were also co-captains.

The men did very well in the District meet to send Staufferin the 200 individual medlay, Cremean in the 100 fly and 100 free, and the record-holding 400 free relay to State. However, Stauffer was the only one to place, 10th, at the meet.



"Boy, was that a race!" says Hank Boissoneault.

Girls Change Season

Sandusky entered the girl's swimming program four years ago for the first time. Originally, the season was in the spring, but this year, all over Ohio, the girl's season changed to winter. The meets were co-ed, but the scores were kept separate. The change was a setback for the girls and the team has some rebuilding to do for the future.

The team placed high in the NWOAC meets, but found the competition stiff at Districts. Renee Johnson placed highest for the Streaks with 4th in the 100 free and the 200 free. The 400 free relay team of Meg Beachy, Johnson, Ann Stauffer, and Joyce Brown gained a 7th place finish. Beachy was the first girl to letter for four years in girl's swimming and Brown was Most Improved.

Doubles Team Is Shining Star

As the statistics show, the boys tennis team suffered a losing season. Head coach, Mark Adams, feels that 1980 was a productive season despite the losses. The team has now built up a strong starting line up. The netters worked hard, though, and gave it their best shot.

The best individual performance was shown by Dave Dibari and Curt Schroder. The first doubles team acquired an overall record of 19 wins and 8 losses. The Sectional Match resulted in 5 wins and 5 losses. Laura Barney and Mary Beth Ackerman were the team managers.

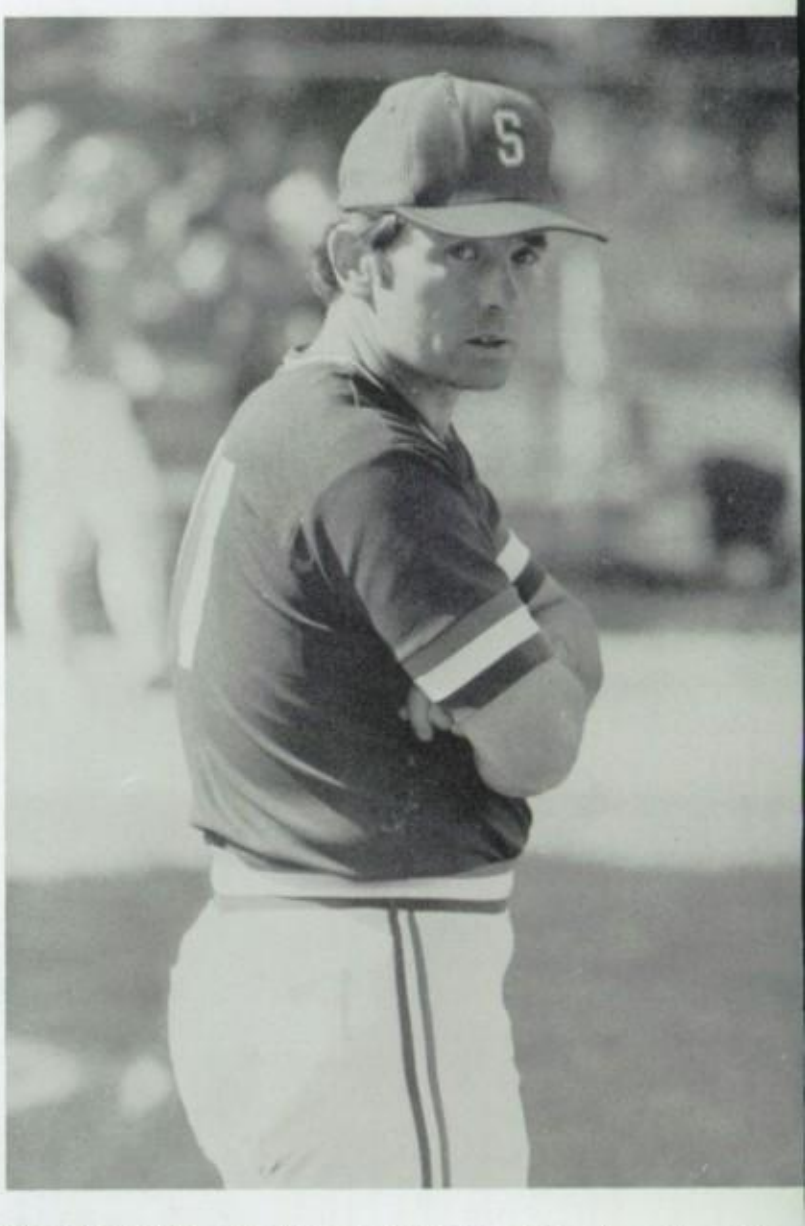
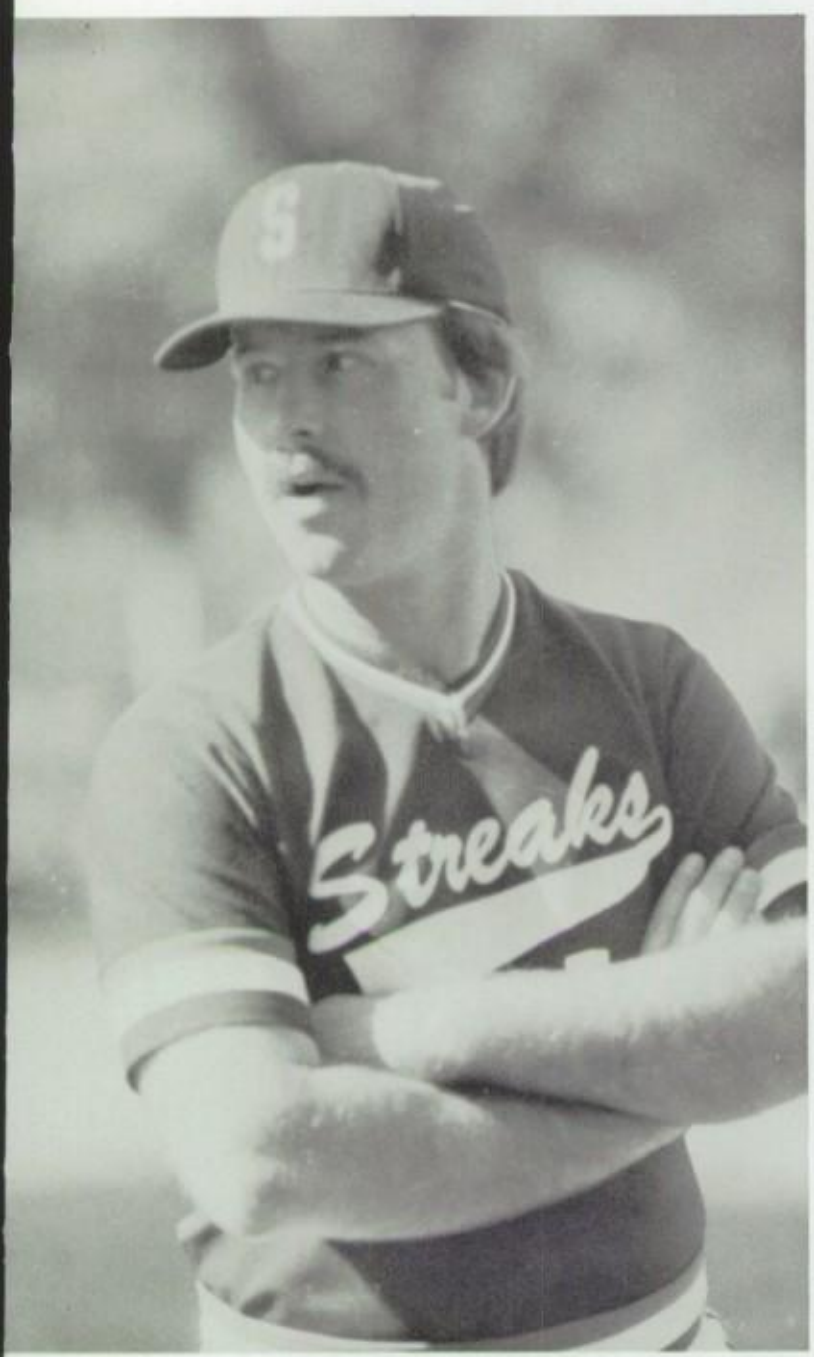
Nine Records Set

The baseball team finished the 1980 season with a record of 10 wins and 9 losses. The Buckeye Conference record was 4 wins and 2 losses. The record placed the Blue Streaks second in the Eastern Division of the B.C. In the state tournament, Sandusky lost to Ashland, 2-0 in a 12 inning game. Brad Gilchrist pitched the entire game, never walked a batter, and struck out 19 batters. This established a new record. Tom Anglin was another outstanding player as catcher and an all-around player. There was a total of nine new records established this season. Gilchrist alone holds four record for pitching.



Coach Deming was often giving instructions from the side lines.

Barney makes the dash to the next base.



"Hey, get back on the base," warns Coach Hysell.

Pitching is Gilchrist, four time record holder.

Regretfully, a picture of the Junior Varsity baseball team was not available. The members of the 1980 team were as follows: Jerry Boone, Jeff Broski, Ken Conlin, Eugene Eversole, Ken Gast, Kevin Johnson, Craig Manner, Jim Mazza, Jim Myers, Mike Pole, Randy Yontz, Scott Van Dootingh, and Troy LaCourse. Coach Cornwell's team compiled a seven win and six loss season. They also had a winning season in the Buckeye Conference with a record of four wins and two losses. Yontz, Pole, Johnson, and Gast had the best batting averages. The star pitchers were Manner, Johnson, and LaCourse.

"Where should I hit the ball this time?" wonders Anglin.

Pride is the catalyst for, human achievement . . . the mover of minds, of muscles and most of all hearts. Your class ring is more than a mere piece of jewelry. A class ring shows Pride.

Your class ring identifies you with your school and your class for all to see. It carries with it much sentimental value and will help you preserve special memories forever.

WHICH ROAD?

Which road shall we take? the road of the sea,
with rolling waves and whirling screw,
the salt on your lips, the white-flung spray,
and a streamer of smoke against the blue?

Which road shall we take? the river road,
with dipping paddles and slipping canoe,
and trees that bend to brush as you pass
as only the trees of a river do?

Which road shall we take? a road of steel,
with a clickety clack along the track?
or the whizzing wheel of an automobile?
or a mountain trail from a horse's back?

Which road shall we take? a road of the air,
a giant bird — with you and me?
There's many a road to take, my dear,
so let's be off! Which road shall it be?

—Mitchell

Tina,
To my Best friend, that I've known since kinder. Guess I have been good friends because we've had our little fights, but nothing that we couldn't straighten out. Remember all the times we had to get those cracks (ha-ha). And over the summer when we got in those fights, but when we got in those fights, but nothing that we couldn't straighten out. Remember all the times we had to get those cracks (ha-ha). And over the summer

Tina,
To a super crazy girl I'm glad I got to know. I don't see where in the world you get it. Well, I'm not gonna waste this whole page with my handwriting so I'm gonna go. Remember: NEVER forget me.
